

CERTIFICATE OF COMPLIANCE

This is to certify that the product:

ENVOPAP PACKAGING PAPER AND BOARD MADE WITH AGRO RESIDUE

Has been certified by Intertek to be suitable for

ENERGY RECOVERY

via Incineration, in relation to the requirements of:

EN13431

Requirements for packaging recoverable in the form of energy recovery, including specification of minimum inferior calorific value

Scope of the certificate

This material is claimed to comply with the requirements of the Packaging and Packaging Waste Directive energy recovery standard EN 13431.

The material is considered able to be **INCINERATED WITH ENERGY RECOVERY** under the definitions of the requirements.

This material is a fibre-based paper that has a net calorific value (qnet) equal to or greater than 5MJ/kg. It is highly suitable for energy recovery in practice in typical existing energy recovery facilities.

Certificate Number:
9170409GP

First Approval:
4 July 2019

Issue Date:
18 August 2020
